**British Intrapartum Care Society Conference**
7th & 8th November, National Space Centre, Leicester. Please see attached poster for details.

**UKARCOG survey**
The University of Nottingham, in collaboration with UKARCOG, are conducting a massively important NIHR funded study to determine the feasibility of a randomised trial of different techniques for managing an impacted fetal head during emergency caesarean section. As part of this study the UKARCOG have been tasked to encourage as many UK obstetric trainees to complete this short survey. The survey is expected to take around 10 minutes to complete. [https://nottingham.onlinesurveys.ac.uk/midas-wp1-obstetricians-survey](https://nottingham.onlinesurveys.ac.uk/midas-wp1-obstetricians-survey)
The closing date is the 10th August and we are really eager to get a high response rate for this collaborative NIHR funded piece of work.
Many thanks
Dr Nicola Tempest
UKARCOG committee member

**Trainees Global Health Committee**
Improving the quality of women’s healthcare event
The second Improving the Quality of Women’s Healthcare event is on 31st October 2019 at the RCOG:
The programme is very exciting - lots of interesting and varied parallel sessions for speakers to chose from and a big name in Quality Improvement (Prof Mary Dixon-Woods) as a plenary speaker. (Think Michelle Obama-levels of influence!).
